Do you have a child who loves sports? Are you looking for a way to help them learn about STEM (science, technology, engineering, and math) in a fun and engaging way? If so, then you need to check out the Find Your Sport Science Readers series.

The Find Your Sport Science Readers series is a new line of books from Capstone Press that teaches kids about STEM through the lens of sports. The books are written by experts in the field of STEM education, and they're packed with engaging activities, experiments, and real-world examples that will help kids learn about the world around them.

The books in the Find Your Sport Science Readers series are divided into three levels: beginner, intermediate, and advanced. The beginner books are perfect for kids who are just starting to learn about STEM, while the intermediate and advanced books are perfect for kids who want to learn more about specific topics.

Some of the topics covered in the Find Your Sport Science Readers series include:

- The science of motion
- The physics of sports
- The biology of the human body
- The chemistry of sports equipment

The Find Your Sport Science Readers series is a great way to help kids learn about STEM in a fun and engaging way. The books are packed with information, activities, and experiments that will keep kids entertained for hours on end. If you're looking for a way to help your child learn about STEM, then you need to check out the Find Your Sport Science Readers series.
